catalogue 2026

Welcome

We're excited to introduce our latest promotional gifts catalogue — a collection designed with passion, creativity, and dedication to help your brand keep growing. As the future of our industry, and of giving itself, is being rewritten every day, we keep our promise simple: to provide gifts worth giving, gifts worth keeping.

This catalogue is more than a collection of products. It is about **inspiration**. It is about creating excitement, telling stories, and sparking the imagination. The pages ahead are designed not just to show you what's possible, but to make you *feel* the possibilities. Because in the end, decisions are rarely made by logic alone—it's the spark of emotion, the sense of connection, that truly drives us all.

As you explore this edition, we invite you to see beyond the products themselves. See the stories they can tell, the emotions they can inspire, and the value they can create for your brand and your clients. Whether you're thanking clients, celebrating milestones, or reaching new audiences, these gifts are here to help your message grow.

digital product passport

The Digital Product Passport (DPP) can be accessed via a QR code on the product's hangtag and inner label. This digital record provides transparent information about the products material, the production journey and environmental impact.

Scan the QR-code on the item to see the product passport

The landing page shows the brand and brand colours, the product it concerns and an image of the product.

By clicking these menu buttons you can find more information about the producers, Impact and Care of the product.

When clicking on the 'journey' button you can see the steps that the recycled materials have made until their final production stage.

availability

Our innovative Digital Product Passport is available on all products with this symbol in the catalogue. Scan the QR-code on the product to see the product passport. This digital record provides transparent, standardised information about the products materials, journey and environmental impact.
